

ENGAGEMENT HOMEWORK

5 POINTS PER TEST

Best practices in learning and project completion is regular engagement. Students are expected to spend enough time to master the material from the last class period before coming to the next class.

To help you develop this habit, you will record each of your study sessions using the form, <https://forms.office.com/r/dTXD4SMEuP?origin=lprLink>. Note that you will need to be logged in to Microsoft to be able to access the form.

At the start of each testing period (or at the due date), an engagement grade will be recorded based on the following scale.

Study Frequency	Points Earned	Avg Hrs Studied/Week	Points Earned
[55%, 100%]	3 pts	[8 hrs, ∞]	2 pts
[40%, 55%)	2 pts	[4 hrs, 8 hrs)	1 pt
[25%, 40%)	1 pt		

Please note that the engagement grades represent about 2.8% of your final grade, and they cannot be made up.

Also note the following statement from the syllabus:

Final grades for this course will not automatically be rounded up. Rounding is contingent on the student's homework and engagement grades throughout the semester.
