

Ma 498 ~ Applications of Actuarial Mathematics

Spring Semester 2022-2023

Instructor: Dr. Melissa Gardenghi
Office: Alumni 38
Office Hours: Daily by appointment, see <https://calendly.com/mgardeng/20min>
Preferred Method of Communication: MS Teams; personal correspondence by personal chat and general course/content related questions in the course general channel
Email: mgardeng@bju.edu
Course Website: <http://math.bju.edu/ma498/>

Course Description:

A study of the applications of actuarial mathematics consistent with an SOA Exam syllabus (generally SRM, FAM, or ALTAM).

Prerequisite: Ma 418 – Actuarial Mathematics I

Course Context: This course supports the following goals of the actuarial program:

- ASM2: The student will progress logically from premises to valid conclusions in a variety of mathematical and applied contexts including analysis, statistics (both theoretical and applied), probability, and finance.
- AMS3: The student will apply mathematics to actuarial problems (such as financial math and probability modeling) in exercising the biblical mandate to have dominion over the earth.

Course Goals:

- CG1: Introduce the student to the content and style of questions presented on an SOA Actuarial Exam. ASM2 and ASM3
- CG2: Prepare the student, including speed and accuracy, to pass Exam SRM or FAM. ASM2 and ASM3

Course Objectives: The student will be able to

1. Plan/manage exam study to be able to thoroughly prepare for a SOA exam. CG2
2. Determine the appropriate approach for solving problems similar to those given on Exam SRM or FAM. CG1
3. Complete a practice exam during a three-hour period with an acceptable percentage of correct answers. CG2

Attendance Policy: You are expected to attend class Thursdays in accordance with University policy. See the student handbook for attendance requirements. Note that you are still required to meet your weekly study requirements even if you miss class.

Office Hour Appointments:

Office hour appointments can be made using the Calendly site, <https://calendly.com/mgardeng/20min> (appointments may be made up to two weeks in advance). If there are no available times at which you are able to meet, send Dr. Gardenghi a message including some days/times between 7:30am and 3pm when you are available.

General Policies:

1. We will meet together each Thursday (the 1.25 hours in class can be counted towards your weekly totals).
2. You will maintain the study log (see the provided Excel spreadsheet) to document your study efforts. You will post the Excel file (and keep it updated) in your personal Exam Prep MS Teams channel, so that I can keep tabs on your progress.
3. You are expected to come to class each week with questions and/or problems with which you struggled.
4. You may find it beneficial to study together. This can be very valuable and is highly recommended.

Course Requirements and Evaluation:

1. The grade in this course will be based on the following:
 - a. complete the Exam FM Starter assignment – 10% (see Canvas due date)
 - b. quality time spent in preparation for the exam (computed as quality time = time in # of hrs * quality rating/4; where quality rating is given on a scale of 1 to 4) – 30%,
 - c. time spent reviewing previous material – 5%
 - d. number and accuracy of practice problems completed – 25% and 15% respectively,
 - e. scores on practice exams – 10%.
2. Passing the Exam SRM/FAM/ALTAM at any point during the semester will immediately result in an A in the course (no other work will be required) , provided that the student submits a copy of the notification of their exam results from the SOA.

Textbook:

There is no required text for this course. You will need to acquire study resources to use. Students in the past have found the Adapt exams at Coaching Actuaries a very helpful resource. (see <https://www.coachingactuaries.com>)

You may be eligible to exam fee reimbursement (see <https://www.soa.org/education/resources/actuarial-colleges/ucap-benefits/>).
